

**BUILD YOUR
FUTURE
ARIZONA**

CRAFT TRAINING PROGRAM INVENTORY

Build Your Future Arizona (BYF Arizona) launched in October 2019 with the goal of building awareness of the construction industry craft professions. BYF Arizona is a multi-faceted marketing campaign, including a website with career pathway and salary information, training programs for individuals to explore, and career opportunities. The BYF Arizona website uses content and collateral from BYF.org with Arizona stories and messaging.

In order to be included as a training program on the website, all spaces below must be completed. All programs included on the website must be aligned with one of the following:

- Craft training programs in targeted positions
- High school Career Technical Education (CTE) programs
- Public programs at a local Career Technical Education District (CTED), community college, or university
- Formalized company program for those invested at or above the Project Manager level

Completion of the information below does not guarantee that the program will be included on the website.

In order to monitor and track success of the campaign, BYF Arizona will request semi-annual updates on enrollment, capacity, and program outcomes. In exchange for being included on the website, education and training providers agree to provide this information as requested. Failure to submit timely data may result in removal from the website.

Separate forms must be completed for each training program offered.
